COMPREHENSIVE RECOMMENDATIONS

1. Medical Consultation & Treatment

- Continue regular pediatric check-ups
- Monitor developmental milestones per age guidelines
- Stay informed about developmental health
- Consult healthcare provider if new concerns arise

2. Therapeutic Interventions

- No specific interventions required currently
- Consider enrichment activities for overall development
- Encourage social interaction through playgroups or activities

3. Yoga & Mindfulness Practices

- General yoga practice for wellness (10-15 minutes daily)
- Sun Salutation (Surya Namaskar): Morning routine
- Simple breathing exercises for stress management
- Mindfulness activities: 5 minutes daily

4. Lifestyle Modifications

- Maintain healthy sleep schedule (9-11 hours for children)
- Encourage diverse social interactions
- Promote physical activity and outdoor play
- Limit screen time according to age-appropriate guidelines
- Foster creative expression through arts and music

5. Nutritional Recommendations

- Follow balanced, nutritious diet
- Encourage variety in food choices
- Limit junk food and sugary beverages
- Promote healthy eating habits and family meals

IMPORTANT MEDICAL DISCLAIMER

This assessment report is generated by an AI-powered screening tool and is NOT a clinical diagnosis. The results should be used as a reference point for discussions with qualified healthcare professionals. All recommendations provided are general guidelines and must be customized by licensed medical practitioners based on individual needs, medical history, and comprehensive evaluation.

Always consult with:

- Licensed pediatrician or family physician
- Developmental pediatrician or child psychiatrist
- Certified therapists (ABA, OT, Speech, etc.)
- Registered dietitian for nutritional advice

Do not:

- Self-diagnose or self-medicate based on this report
- Start any medication without professional prescription
- Discontinue existing treatments without consulting your doctor
- Delay seeking professional medical advice

This report is for informational purposes only and does not establish a doctor-patient relationship.
